Dear Tim,

This is just a note to thank you for coming and sharing Mentor's Training with pastors and leaders in Omaha.

We had vision of enhancing our ministry to children and youth but were not sure what it should look like. We knew we wanted to add a mentoring arm to what we are already doing but again, we did not know what it should look like.

Everyone I spoke with without exception agreed that your presentation was informative, enlightening and inspiring. What I hear others say and what it felt like to me was "Kingdom Ministry." Your presentation also helped clarify what mentoring is (and by default what mentoring is not). It was non-churchy, applying applications that are outside the normal church box. The tools that you placed in our hands were awesome. They are well thought out, easy to use and very practical.

The person who will serve as my Champion was out of town last week, due to his job. However, we will be going over the materials and making plans to formally launching our North Omaha Good News Bears' Mentoring Program.

Again, thank you for your awesome presentation and empowering real world examples.

Sincerely,

**James Patterson**  
Rev. James Patterson  
President/CEO

**Inspire youth and families to reach their maximum potential thorough faith producing responsible and caring citizens.**
